CASE of three People cured of the Yellow Fever, *in a Gentleman's Family in Barbadoes.*

THERE were three Persons in Mr. Willis's House that had the Yellow Fever, one Woman, one Lad, and a Girl about twelve Years of Age, which the Doctors declared would not live till the next Morning: In the Evening, when the Physicians had left them, a Paper of Dr. James's Powder was given to each of them, which operated by Vomitings, Stools, and Sweats; after this they fell asleep, and slept till the next Morning, and to the great Surprize of the Doctors, and all in the House, they were perfectly recovered.

By the KING's *PATENT.*

HIS Majesty having been graciously pleased to grant His Royal Letters Patent, bearing Date at Westminster the 21st Day of May 1754, unto John Lewis, Merchant, in Plymouth, for his new invented Varnish of Pine, prepared from the Glutinous Juices of the American Pitch Pine Tree, proved by many Experiments made in His Majesty's Dock Yards, and many other private Docks, to be the cheapest and best Preparation for Paying Ships Sides and Masts, and for preserving Ships and Timber Buildings from the Weather, from the Worm, and from Decay of any Thing yet known. It is very tenacious and penetrating, and intirely free from that saline acid Water which is found in Turpentine in great Quantities; it will never turn White after Rain, but continue always of a bright Amber Colour, and very transparent; it must be laid on cold with a Brush, which may be done at Sea as well as in Harbour; and is of the Consistency of Linseed Oyl, boiled down very thick, and quite as smooth.—One Hundred Weight is sufficient to pay the Sides and Masts of a Ship of 250 Tons: This is therefore to acquaint the Publick, that the said Varnish is sold by the Patentee at Plymouth, and by Mr. Alexander French, Ship-Chandler, at Rotherhith.
